

Laureate "At a Vendor or Provider": Jacqueline LAMBERT

« Passion for software, plus an entrepreneur spirit »{flv}Jacqueline Lambert-Philae-Final1Mbps_Stream{/flv}Video not translated.

Jacqueline has started up its own business: a consulting and services small company specialized in information and knowledge technologies. For her customers, large industrial groups or administrations in France, she implements top of fame IT technologies. She says she has developed an efficient “Woman’s approach in entrepreneurship and in the delivery of technological services and consulting”. Highly enthusiast, Jacqueline worked 10 years before starting up her own business. Previously, she specialized in Artificial Intelligence technologies and developments. “You’ll never find better than AI in computing”, she says, as AI is the science that try to simulate the human brain. She got this passion after attending to science conferences and meetings at the French National Center for Scientific Research (CNRS). Jacqueline, 34, is married with two young children. She assume having found the right balance between her family life and her job, and between personal development and professional motivations. Her background:

Jacqueline graduated from the famous French IT engineering school EPITA (our founding partner) and owns a Master degree from the University of Paris 6.
